

Public Safety Alliance's Southwest Border experience is like none other in the country. Our instructors work consistently with unique Southwest Border issues in the US and Mexico, making us experts in Mexican DTOs and Transnational Criminal Organizations.

PSA has developed a one-of-a-kind, *hands-on* automotive course for criminal interdiction. Learn what "normal" is and how criminal organizations create compartments to defeat law enforcement.

#### PSA MANAGEMENT

PSA is managed by its President and Senior Instructor Nick Ramos who has dedicated 20 years to Law Enforcement as a Sergeant and 21 years to the US Military as a Captain in the service of training others. This company's focus is on providing crucial training solutions to Public Safety employees whose needs are simply not limited by budgetary constraints. PSA was born from a training culture where creative minds developed ideas, molded them through field trials, and solidified them within the courts. Our training programs are time tested and courtroom proven. As Nick says, "Give ordinary people the right training - they will do great things. Fail to train them and you set yourself for failure."
