February 16, 2016
0830-1700

P.O.S.T. CERTIFIED
PLAN IV #8790-22273

MCAS Miramar Bob Hope Theater

CLASS TOPICS:

Synthetic drugs have spiked in our communities and more are being created daily. Proper enforcement and prevention requires education. Join us and learn about: The History and Chemistry of Synthetic Drugs. Identify and Recognize the Various types of Synthetic Drugs, Effects and Influence on users. Investigative Techniques and Proper Handling of Synthetic Drug Operations. Risks Associated with Synthetic/Designer Drug Labs. Laws and Legislation Pertaining to Synthetic Drugs

INSTRUCTOR:

*Detective **Bruce Gentner** has been employed by Las Vegas Metropolitan Police Department for over 20 years. He is currently assigned to the Narcotics Section and conducts training on Synthetic/Designer Drugs across the United States and abroad. He has worked over 14 years as a case agent and undercover assignments. Bruce has extensive experience in nightclubs and club drug investigations, as well as investigating and instructing in numerous clandestine methamphetamine labs, marijuana grow productions and pharmaceutical/synthetic drug operations. He has also worked on a HIDTA Interdiction and DEA TDS Task Force, as well as with FBI, HIS and Nevada Gaming. Bruce is the former Executive Director, President and Founder of the Nevada Narcotic Officers Association. Bruce is an energetic, knowledgeable, and dynamic instructor. Don't miss this educational opportunity.*
