

***CRASH ZONE/CRIME ZONE 3D DRAWING
WITH POCKET ZONE & SCENE MAPPING
TRAINING UTILIZING MAPPING EQUIPMET.***

Sept26th – 30th 2016 (Mon-Thurs) 7am – 5 pm

40 hour Training Course Hosted by

El Cajon Police Department

100 Civic Center Way El Cajon, CA 92118

This class will cover basic to advanced topics on Crash Zone / Crime Zone. This training will cover everything an Officer needs to know to complete scaled diagrams for courtroom presentations. The students will learn techniques to document their scenes from hand measurements or their forensic mapping systems. (Total Stations or LTI mapping equipment)

Evaluation software can be provided for use during the class.

Each Student will be given a CD with all the training materials and user manuals to setup forensic mapping systems. Students must bring a laptop with the software loaded or capable of having software loaded without administrator rights being required. They should also bring whatever tools they use to map their scenes, i.e.: tape measures or laser mapping equipment. Only a few mapping systems will be available for use.

The instructor is a Master Instructor with Cad Zone and has over 22 years experience in Traffic Investigations. LTI, Nikon and Electro Optical Surveying have certified him as a mapping instructor.

New Training requirements coming out next year from the National Commission on Forensic Science. Make sure your agencies officers are trained by a certified instructor to meet these requirements so there testimony about their scene/evidence collection and diagrams are admissible in court.

The cost of this course is \$795.00 per student.

Students must make there own lodging arrangements.

Payment must be received no later than Sept 19th 2016 unless prior arrangements have been made with the Instructor. To reserve your spot please send Agency/Company employed by and students name.
