Administrative Investigations

Topics will include:

- Misconduct and Discipline issues
- POBAR
- Legal/Civil issues
- Investigative Techniques
- Effective Documentation
- Psychological Impacts

Who should attend?

This intensive three day course is designed for first-line supervisors that may handle Administrative Investigations at the initial stages and investigations involving minor policy and procedure violations. The course will provide first-line supervisors with the training needed to properly conduct Administrative Investigations.

Students will be provided with standardized methods for completing Administrative Investigations, to include conducting interviews with complainants, witnesses, and focus officers.
