

Training Course

October 14 - 18

Escondido, California

Escondido Police Department
1163 N. Centre City Parkway
Escondido, CA 92026

OVERVIEW

This course focuses on the full spectrum of vehicle forensics. It is structured to provide investigators with the necessary skills to identify, acquire, and analyze data from vehicle systems using iVe. The course starts with gaining a basic understanding of the available data and quickly moves from theory into practical exercises with vehicle disassembly and system removals.

During the course, vehicle manufacturers and supported systems are covered. Investigators will work through the identification of the vehicles and systems, conduct hands-on acquisitions, learn troubleshooting techniques as well as learn how to analyze the data from each system. This is an active course with a large portion being hands-on acquisition exercises and practical data analysis exercises. Each part of the course builds on the next, increasing confidence through repetition.

CERTIFICATION

At the conclusion of the course, attendees will be given the opportunity to sit for the iVe certification exam. Investigators who have successfully completed the five-day course and have passed the written and practical certification exams will earn the iVe Examiner Certification.

WHO SHOULD ATTEND

Law enforcement, military, civil and regulatory agencies, and select private industry organizations. The course is appropriate for both technical and non-technical investigators.
