

About Us

At Revive Pathway, we share a journey with our patients and the many communities of which we are a part. Our work is to build connections with individuals and families and to save lives in the process. The word “revive” is defined as “restoration,” “regaining life,” “renewal,” and “flourishing again.” These concepts are central to our identity and our vision. The actions and intentions of our team are rooted in Compassion, Growth, and Respect as we join and support our patients on their individual Pathways to Recovery.

Revive Pathway brings an innovative model of highly individualized, compassionate care to patients with opioid use disorder. Cutting-edge science guides our approach, and compassion for patients and families fuels our non-stop work. We bring medical expertise to our treatment of each patient, and we show up as partners on their unique paths to recovery.

Our Services

- Scientific and compassionate approach
- Physical medicine and mental health treatment for our patients who are being treated for substance use disorders
- Medical treatment for other substance use disorders in addition to opioid use disorder
- Evidence-based recovery support that incorporates cultural humility
- Case management services in clinic and with community partners
- Connecting individuals to support services.

Revive Pathway

Offering treatment for opioid use disorder, including addiction to heroin, fentanyl, prescription opioids, alcohol, and other addictive substances.

*Your pathway begins
when you walk in the door—
no appointment needed.*

Your Treatment Plan

Affordable Care

At Revive Pathway we accept Medi-Cal and Medicare Insurance, or self-pay options are available to receive treatment. If you are eligible for Medi-Cal but not currently enrolled, our team is ready to help advocate and walk you through the enrollment process.

Treatment Planning & Counseling Services

At Revive Pathway, we do more than dispense medication—we connect to patients through treatment planning and counseling services. Our approach is centered on treating the whole person. Our counseling services are individualized for each patient. We work with you to develop goals for your treatment, and we help to achieve those goals.

Counseling services are an essential part of our approach to treating opioid use disorder and are integrated with our case management and connections to community resources.

A Partner On Your Path To Recovery

We provide a nonjudgmental, safe space for people who use drugs like heroin, fentanyl, and other addictive substances to get help. We understand the stigma of addiction, and we are committed to supporting your journey toward healing and recovery.

Our team has decades of experience in treating addiction and helping patients lead healthier, more fulfilling lives. Our clinic is a welcoming place where you can expect to find a scientific approach to substance use disorder — and see a lot of friendly faces.

**Come in today to get started.
No appointment needed.**

Hours Of Operation

When you are ready for treatment, just show up during our hours of operation, and we'll get you started. We make it as easy as possible for you to start your treatment.
