SOAP MAT, LLC.'s Mission

Our mission here at SOAP MAT is to provide a high quality outpatient opioid treatment program (OTP) that promotes health and well-being to an opioid dependent, underserved population. The goal of our program is to provide affordable, Medication for Addiction Treatment (MAT) utilizing a harm reduction model, focusing on each patient as an individual. We strive to enable our patients to engage in their community and function at a higher level, yielding a decrease in crime rates, high risk behaviors and deaths. The end result will be sobriety, as evidenced by an absence of abusing illicit opiates.

Currently we are accepting Medi-cal, Medicare Part B (and supplementary providers), multiple commercial insurance providers, and self-pay patients. Additionally, we are working to broaden the scope of the insurances that we are able to work with.

Services Provided

We strive to provide personalized care utilizing:

- Medications for addiction treatment through the use of Methadone, Subutex, Suboxone, Sublocade and Naltrexone
- Comprehensive Care Coordination and Case Management
- Individualized counseling services
- Medical Staff specially dedicated to providing high-quality MAT services
- Referrals to community resources
- In-House Perinatal Specialists

Evidence Based Practices

We strongly believe that the best way to provide for our patients is by utilizing evidence based practices that have been shown to lead to greater outcomes. Current research shows that MAT treatment is one of, if not, the most effective forms of treatment for the population facing substance use disorders. All staff here at SOAP MAT, LLC. consistently engage in substance use disorder based trainings and education to provide our patients with the most comprehensive, accurate and current information regarding what practices show the best outcome rates as pertaining to sustained sobriety and overall well-being.
