

FIELD RADIO USER CLASS

LAW ENFORCEMENT PERSONNEL

This class is designed for Law enforcement personnel that use Motorola APX radios and equips Field Personnel with tools to effectively manage Radio Use communications. Instruction includes how the radio system functions (system layout, trunking, site trunking), use of portable and vehicle radios (transmitting, receiving, channel navigation, emergency button, encryption, programming scan lists, etc.) and mutual aid communications.

This class is hosted by RCS at no cost to the agency and is POST certified (POST - Plan IV; 8hrs)

Learn about the Regional Communications System Layout and Operation

Failsoft and other Redundant Operations

Mutual Aid Communication Protocols

Out of County Channel Use

Operation of Portable & Vehicle Radios

Information on Encryption
